The tables of births, marriages, and deaths, which, perhaps, would most appropriately come in here, are placed last in the report. The large amount of matter that they contain necessitates a division, or larger pages. We present all the matter of each table on one enlarged page, thinking this will be more satisfactory.

PRINTER.

Report of the Board of Education.

The schools in town for the past year, have, in the opinion of your Board, been equal, and in some respects superior to those of any previous year. By the operation of the present Town System, which selects the fittest, our teachers for the year just closed, have undoubtedly reached a higher grade of excellence than ever before; and almost without exception have wrought with a skill, persistence, patience and energy that entitle them to our thanks.

The people, too, appear to have an increasing interest in encouraging and assisting the schools.

There has been no prevailing sickness to impair the attendance, which has been quite as good as usual, yet, we cannot help the belief that in many cases it has not been as complete as it should. We wish there might be on the part of some, a more perfect realization of the fact that the school is made for the scholars, and that a day lost from the school can never be regained.

There seems to still be a lingering misapprehension as to the authority of the teacher. It should be remembered that when the scholar enters the schoolhouse the authority of the parent ceases, and the teacher has sole authority. We would refer to the report of the school board in 1890 for further elucidation of this subject.

Each school has been—as for the two previous years—28 weeks in length, excepting that at Davisville, which was extended to 30 weeks by the income from a special fund belonging to that school. This is in striking contrast with the condition in 1885, the last year of the old system, when the average length of schools was but 17 1-2 weeks, and more than one school had only 10 weeks during the whole year.

By the generous action of the last annual meeting, appropriations were made for repairs on the Burnap, Village and Waterloo houses. These repairs have been made, and in each case

within the appropriation; and are truly great improvements. The occupied houses are now generally in quite fair condition. The unoccupied houses in the Gore and on Pumpkin hill are not likely to be needed again in the present condition of affairs; and if they should be, are believed to be scarcely worth repairing so as to be made tenable; and it is recommended that some action be taken at the annual meeting, looking to a disposal of them, as it is not to the credit of any town to permit public buildings to stand neglected until they go wholly to decay. It is suggested that the other unoccupied houses should be disposed of, or kept in sufficient repair to prevent destruction.

For further statistics concerning the schools, reference is made to the tabular statement published herewith.

Respectfully submitted,

B. F. HEATH,	} Board of Education.

Simonds Free High School.

The good work in the line of a higher education that has been prosecuted in our high school for twenty-three years, in the interests of the youth of our town and vicinity and for the public welfare, has gone steadily, persistently and successfully forward during the past year.

At the close of the Spring term, June 22, 1894, a class of ten was graduated from the school. These added to the former graduates, make an alumni of ninety-two. With the close of this term also, Miss Minnie E. Wheeler terminated her labors as assistant, a position which she had held since the fall of 1891. In consequence of her high qualifications and skill as a teacher, her fine sympathies and friendly relations with her pupils, and her estimable character which endeared her to a large circle of acquaintances, Miss Wheeler's leave-taking of the school was universally regretted.

Principal J. M. Barton entered upon the work of the year with the advantage of his previous year's experience, and a knowledge of the abilities and acquirements of his pupils. His ambition to place the school in the front rank of high schools, and to maintain its position there, ever keeping pace with the progressive tendencies of the educational world, has been of great value; and coupled with his high qualifications, a full sense of his moral relations, and his ability to present clearly to the minds of pupils any subject under consideration, warrant us in saying the school is on a high plain and in condition to yield most gratifying results.

Miss Mabel D. Hancock, a graduate of Boston University, is filling with ability the position of assistant. She is a faithful instructor and aims at thoroughness in class work, and although some young pupils chafe under this method, and think their progress is too slow, yet, after all, it is for their highest benefit.

The average attendance for the year has been about fifty, of these quite a large per cent. have come from surrounding towns.

The courses pursued and the number of pupils in each can be ascertained by reference to the catalogue. Last fall we admitted ten scholars to the preparatory course, three to the Latin-English course of the junior year, and two special students. Nine failed to pass the entrance examination. During the year, forty have studied Latin; eighteen, arithmetic; and twelve, English grammar.

The good conduct of the pupils at school, on the streets and in other public places, has been very noticeable, and all rules, regulations and requirements have been cheerfully acquiesced in.

It is worthy of mention here, that the pupils through an organization of their own, have for more than a year, conducted and published a creditable school paper, "The Simonds Echo." This enterprise of the school required courage at the start, and has called into active operation, enterprise, skill and persistency in order to keep alive and build up a first-class school paper. This paper will be published monthly during the nine months of the school year. The thoughtful person will not need to be told of the great advantages such a paper will be to the pupils who manage it and contribute to its columns, nor of the benefit to the school by keeping a large list of readers informed in relation to the progressive spirit and enterprise of the institution. This enterprise should be encouraged by personal patronage.

The lyceum has kept pace with the progress in other connections and the meetings have been very profitable.

Is the school without faults of any kind? We suspect not. Is it above criticism? We do not claim it. But we do claim that much of the criticism of schools and of public servants is unjust, and that there is a wicked tendency on the part of those who claim the right to criticise, to do so without taking the trouble to inform themselves as to whether or not the alleged faults and failings which they are depicting with loud vehemence, really exist, or are only creatures of morbid imaginations.

The appropriation of \$200 for repairs on the high school building, made last year, has added materially to the appearance of the schoolrooms and to the comfort of the pupils. A small appropriation for repairs should be made at the next annual meeting.

Respectfully submitted,

E. C. COLE, Superintendent.

The Pillsbury Free Library.

BOARD OF TRUSTEES.

Samuel Davis, S. C. Pattee, A. P. Davis, Arthur Thompson, B. F. Heath, H. C. Davis, F. M. Colby, J. R. Cogswell, C. W. Redington, Charles Currier, Amanda B. Harris.

It is five years since your present board of trustees were elected and it now devolves upon you to create a new one.

In submitting this last report we wish to add a few words. The rules and regulations established, at the beginning, for the government of the library were the result of much deliberation and extensive research, involving the examination of the catalogues and management of a large number of the libraries in the country; and now, at the close of our term of service, we have to say that, they have worked admirably well.

Neatness and order prevail in all the apartments. The books have been faithfully cared for and silence has indeed been found to be golden in the reading room.

We were very fortunate in the selection of a librarian. Her knowledge of books and her familiarity with the tastes and needs of the patrons of the library give exceptional value to her services, and the faithfulness and efficiency with which she has enforced the rules, under the supervision of the trustees, cannot be too favorably commented upon.

I am loth to close without adding one more thought. On examination of the records of the librarian I find that it is really regarded as a public institution: more than 30,000 books have been taken out in the three years since it was opened. But it seems that fiction is regarded by far the most desirable reading. Fully one half of all the books read are classed as fiction. This is not regarded as strange or very different from the showing of other public libraries; but, we hope that parents will see to it that the rising generation does not lose sight of the fact that fiction, in whatever form it appears, is about what the word signifies, namely, "that which is feigned, imagined, or invented," and that it should not be permitted to bar out truth as it appears

in history, biography, etc. It is well known that our library contains very valuable works in history and biography, and we must all realize that it is only by giving a fair share of time to them that our young people can obtain that knowledge which is required to give strength and support to all of our institutions and make themselves truly intelligent.

The report of the librarian and treasurer are herewith respectfully submitted.

SAMUEL DAVIS, President.

REPORT OF THE LIBRARIAN.

TO THE TRUSTEES OF THE PILLSBURY FREE LIBRARY:

Gentlemen:—I herewith submit my report for the year ending Feb. 15, 1895.

Books.—Number of books in the library, not including public documents, 4,812. Accessions: by purchase, 199; by gifts including public documents, 59; by binding 20; pamphlets, 66.

Circulation.—Number of persons who have taken books, 501; number delivered for home use, 8,893; number used in the library, 523; largest number delivered in one day, 184; smallest number delivered in one day, 31.

B. F. HEATH, Treasurer.

WARNER, N. H., FEB. 15, 1895.

We have carefully examined the account and the report of the treasurer of the board of trustees. We find the total receipts of the year, including balance from former treasurer, to be \$720.07 and the expenditures \$473.49, leaving a balance now in the hands of the treasurer of \$246.58.

A. P. DAVIS,	} Finance
S. C. PATTEE,	
F. M. COLBY.	

VITAL STATISTICS-

TO THE SELECTMEN: In compliance with an act of the Legislature passed June session 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages, and deaths to the municipal officers for publication in the annual report, I hereby submit the following:
